

# LOBSTER CRATE / SODIUM METABISULFITE DIP

## FLOATING LOBSTER CRATE

- Ideal all-plastic transport container for 100 lbs. of live lobster and crab.
- Measuring 32" x 20" x 15", the crate has a low, accurate tare weight of 16 lbs.
- Designed to optimize buoyancy and drainage for floating storage. Lobsters remain submerged while container floats, even when cover is open.
- The two-piece attached lid, hinged to the tote, is secured with latches that snap in-to place.
- These crates will nest when empty to minimize storage space and freight costs.

## SODIUM METABISULFITE FOOD GRADE FOR SHRIMP AND LOBSTER

55 LB. PAIL

### DIRECTIONS:

For shrimp and lobster tails, use 1 pound of Sodium Metabisulfite for each 50 gallons of fresh or salt water. Dip for 30 minutes. **NOTE:** The container in which the solution is used **must** be made out of stainless steel, fiberglass or plastic. **UNDER NO CIRCUMSTANCES SHOULD YOU USE A GALVANIZED CONTAINER.** The duration life of the solution is 6 to 8 hours. Do not attempt to use it for a longer period of time as the solution will be ineffective. If you use the solution from one day to the next, it will turn the product yellow.
