The ED7500 series is our next generation line of rugged and dependable trap haulers. The ED7500 models are mounted on a marine-grade aluminum back plate which combines superior structural strength and corrosion resistance with minimum weight. The back plate provides four splitter mounting points and two additional mounting points for an optional fairlead roller. The muscle behind the ED7500 series is a 3/4 HP 12V DC motor designed for marine applications paired with an extra heavy-duty 20:1 (or available 30:1) right angle gear reducer capable of pulling 100 lbs. while drawing only 36 - 45 amps. The ED7500-12XHD SS hauler comes with 12" stainless steel discs boasting a maximum line speed of up to 400 FPM.

### ED7500-12 SERIES 3/4 HP MOTOR w/12" DISCS

MODEL	MAX LINE SPEED	MAX LOAD †	AMP DRAIN ††	WEIGHT	LENGTH	WIDTH	DEPTH
ED7500-12XX (30:1)	310	100 lbs.	36-45 amps	65 lbs.	23"	16"	12"
ED7500-12XHD (20:1)	400	100 lbs.	36-45 amps	65 lbs.	23"	16"	12"

† As the weights you pull increase, the line speed will decrease and the amp drain will increase. This data is designed to offer approximations only. Individual results will vary slightly. Battery drain is related to the length of time that the hauler is on.

†† Approximate amp drain under load. Individual results may vary.
